(Mr. Johnson,) stated that it was to destroy the sanctity and propriety of the ballot-box. This was not the cause. The object of the bill is to protect the ballot-box to prevent improper votes, and to secure to the State all those who are justiy and legally entitled to vote. It is a measure of protection to the State. When this war commenced, it is a lamentable fact, that a large portion of the citizens of this State wont into rebellion. They were not compelled to go, but only followed their own incitions. They went, and in doing so, letteverything—home, friends, kindred, and all the rights and privileges to

The Begistry Law.

The bill providing for a registration of voters, after considerable amendment and two days' discussion, was passed yesterday by the House of Delegates, by a vote of 35 to 6, a few members being absent, a majority of whom would have voted against it. Had all been present the vote against it would not have exceeded a dozen.

To correct the misstatements made by certain "democratic" sheets, we take the liberty of stating that a careful estimate made by the Auditor shows that the cost of carrying the registry law into operation will be less than \$12,000.

The rebels paid no attention to constitutions and we must fight the devil with fire, and he thought it would be well that those who argued in favor of the full and free forgiveness of rebels should read the 109th Psalm, beginning at the 6th verse. Before a sinner obtained pardon of God, he must repent, and certainly a rebel should read to present the force of the full and free forgiveness of rebels should read the 109th Psalm, beginning at the 6th verse. Before a sinner obtained pardon of God, he must repent, and certainly a rebel should ask no privileges until he at least should repent. So far he saw no signs of their repentance.

Mr. Kellar said he was neither a preacher nor the son of a preacher, and

was in a theological seminary. He was making the last speech he expected to make as a free man, if this bill passed. It would transfer the elective franchise from the people to the Governor. Why was not the power of registering voters given to the Board of Supervisors, who might be expected to know the best men in their county? THE SALE OF THE KNABE PIANO has increased beyond precedent within the last five years, partly owing to the very great improvements that have been made in them, and partly to the fact that the people generally have become better educated in maste, and consequently better able to appreciate the great resources of this noble instrument.

The Piano Business

Has suffered material injury from the fact that some manufacturers, in order to furnish an instrument at a low price, and still make a 3 cod profit, have used inferior stock in their construction, and rushed them through without giving proper time and care to their workmanship—and in consequence of their solid profit in showy cases, and the price being lower than a first-class Plano can possibly be afforded, they have found many purchasers, but a few months or a years or two at most have invariably demonstrated the fact that they are the dearest instruments they could have bought.

IN THE CONSTRUCTION

KNABE PIANO Only the best stock is selected, and owing their immense capital they command it choice of labor and can afford to pay bet prices than small makers without means.
